```
select * from follows ;
select * from likes ;
select * from photo_tags ;
select * from photos ;
select * from tags ;
select * from users ;
```

Loyal User Reward: The marketing team wants to reward the most loyal users, i.e., those who have been using the platform for the longest time.
Your Task: Identify the five oldest users on Instagram from the provided database.

```
select username,created_at from users order by created_at limit 5;
```

Inactive User Engagement: The team wants to encourage inactive users to start posting by sending them promotional emails.
Your Task: Identify users who have never posted a single photo on Instagram.

```
select * from users where id not in (select user_id from photos);
```

Contest Winner Declaration: The team has organized a contest where the user with the most likes on a single photo wins.
Your Task: Determine the winner of the contest and provide their details to the team.

```
select * from comments ;
```

```
